

BEAM EXPANDER

BE-1-4x-355-Z

en | Data sheet | 1.0.1

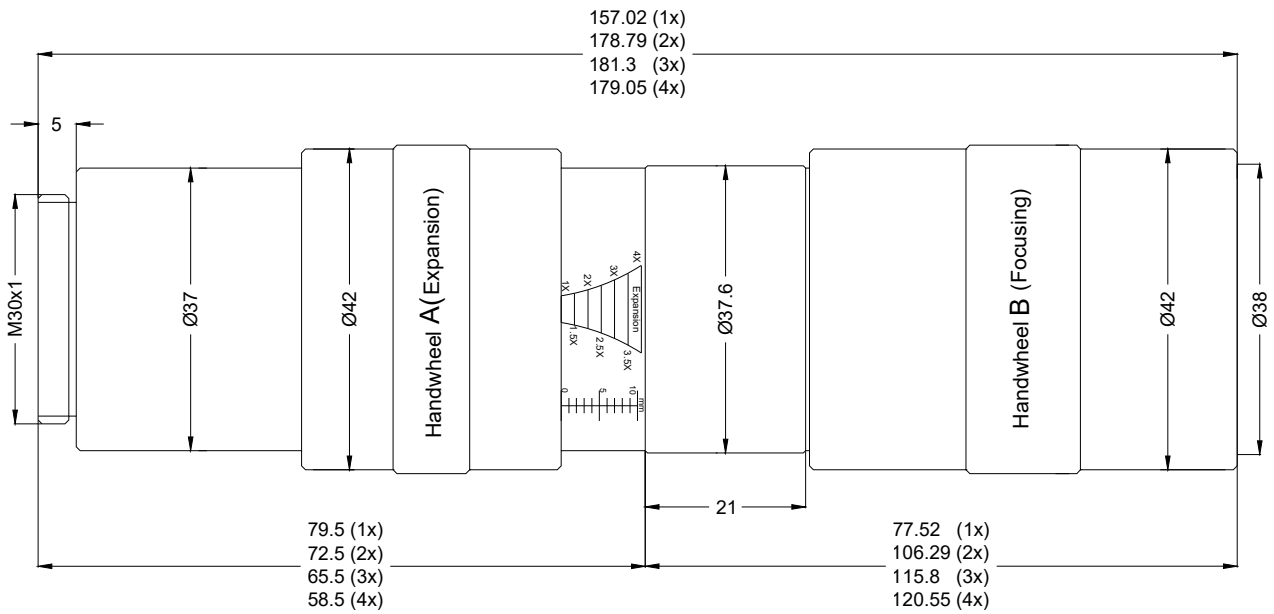

- Fused silica beam expanders, 355 nm
- Adjustable magnification 1 - 4x
- Maximum input beam 5 – 9 mm
- Variably adjustable divergence

Wavelength	355 nm
Magnification	1 – 4x
Max. input beam diameter (zoom)	9.0 mm (1x) – 5.0 mm (4x)
Optical principle	Galilei ^[1]
Adjustable divergence	Yes
Adjustable magnification	Yes
Transmission (>)	96%
Cooling method	Air
Lens material	Fused silica
Mounting Ø	37.6 mm

^[1] No internal focus

Beam expander

BE-1-4x-355-Z

Dimensions are given in millimeters and are intended as reference values.
Binding information is available on request.
